Video Brochure

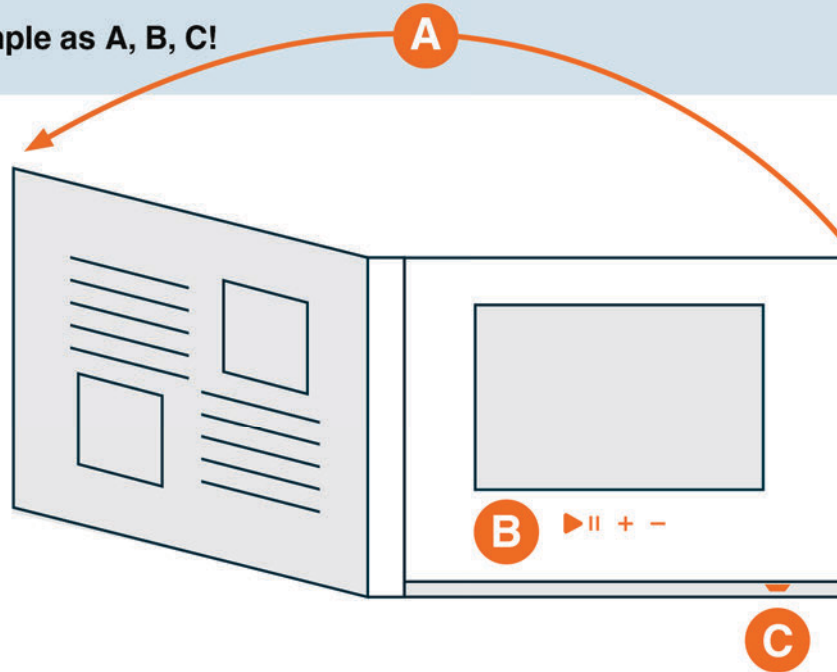

1.1 Uses

Video brochure applications include:

- New product introduction
- Education
- Invitation
- Training
- Demonstration
- Virtual tour
- Orientation
- Commemorative gift
- Special presentation
- Sales collateral
- Annual reports
- New business
- Solicitations
- Product assembly instructions

2.0 How it works

It's as simple as A, B, C!

Auto Start: Video brochure will automatically play when opened, and turns off when closed.

Buttons: Up to 10 custom control buttons can be installed, allowing for volume control, play, pause, or even switching between multiple videos.

Content: Video content can be preloaded at the time of manufacture, or can be uploaded later. Installing new content is as easy as dragging and dropping from your laptop using a standard micro-USB data cable (provided).

3.0 Three Rs of Video Books

Rechargeable

Video brochures come fully charged from the factory and will provide over 90 minutes of continuous playtime. The internal lithium ion battery can be quickly recharged using the included micro-USB cable.

Reloadable

The video brochure's internal memory functions just like a USB flash drive. Loading a new video is as easy as drag and drop. Connect to your computer via the included micro-USB cable to access the media folder.

Reusable

Video brochures can be repurposed when existing content is no longer relevant.

4.0 Covers

Video brochures can be produced in hard or soft cover. Hard cover is recommended for screen sizes 7" and larger.

soft cover

hard cover

4.1 Sizes

Available sizes include, but are not limited to the following dimensions:

Just the Facts:

What is a Digital Video Book?

It is a reloadable, rechargeable, reusable video screen and speaker embedded in a brochure or a hard cover book, creating a multi-media experience for the user.

Reloadable:

Upon connecting it to a computer via a USB data cable, our video brochure becomes a USB drive on your computer there after one can delete/copy/transfer video files from a computer to the video brochure and as such one can load various video for a variety of uses.

Rechargeable:

Video brochures have a rechargeable battery that offers continuous play for 90 mins! Simply plug into a computer or a charging device via the included micro USB cable for recharging.

Reusable:

Our video brochures can be used over and over again by reloading different content via USB cable.

Screen sizes:

All screen are measured diagonally our video books comes in following sizes: 2.4", 4.3", 5", 7", 10".

LCD vs. IPS Screens:

LCD (Liquid Crystal Display) comes standard. You can also upgrade to an IPS Screen. IPS or In-Plane Switching screens offer truer color, wider viewing angle and HD resolution.

Carrier / Cover:

The electronics are embedded in a carrier with the choice of a soft cover or a hard cover.

The soft cover carrier is pliable and is suitable for screen sizes 2.4", 4.3" and 5".

The hard cover carrier is like a hard cover book, it offers better protection to the larger screens ie: 7" & 10", however can be used for any size video brochure

Common Cover Sizes/ All Video Books are Custom Built to Desired Size.
